Creating a Network

The following is a list of recommended professionals to have in your Network. These should be people you can call upon to assist you in accomplishing the goals of your program, fixing problems, or just making your program richer and fuller. They are the experts. It is important for every child care professional to realize that you do not need to know how to do everything...you just need to know where to go to get the answers. Having a complete network of professionals available to you is the most valuable tool a child care administrator can bring to their job...besides heart.

- ❖ At least 5 other Child Care Professionals
